

INTRODUCING MULTIPLEX PROTEOMICS SOLUTIONS

Genotypic Technology The Official Channel Partner For Somalogic Platform in India

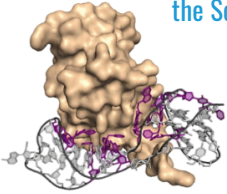

7K Targets

DISCOVERY, VALIDATION,
AND DEVELOPMENT

11K Targets

EXPLORE THE POWER OF MORE
More proteins. More pathways. More pQTLs

Additional product solutions available with
the SomaScan 7K & 11K Assay

SomaScan Panels

Custom Panels and
Disease Specific Panels

SomaSignal Tests

Powerful proteomic profiling provides
multiple clinical assessments
from a single blood draw

Explore the multitude of protein profiling

High Specificity

Aptamer-based
Reagents designed for
epitope binding

Highest multiplex

7K or 11K protein
measurements

Low sample volume

Perform a single assay
run with 55 µL of
plasma & serum
samples

Reproducibility

Low CV of ~5% with
both 7K and 11K assay

High throughput

ability to scale up
sample process very
rapidly

Sensitivity

10-log dynamic range
from fM to µM

Data Generation

Data files generated is
ready for processing,
formatted and provided
for your team.

High throughput proteomics simplified in key areas of disease

Cardiovascular
disease

Neurology

Diabetes

Nonalcoholic
fatty liver disease

Oncology &
Immunotherapy

Rare
disease

Genotypic Technology Pvt Ltd

#2/13, Balaji Complex, 80 ft Road, R.M.V Second Stage, Bengaluru-560094 India.

Custom panels:

Design your own panel
with up to 100 or 1,500
proteins to build your
unique custom panel for
your research.
